PROFILE

Software Engineer seeking employment opportunities to leverage programming skills and contribute to the development of cutting-edge software solutions. Committed to fostering innovation and achieving excellence through collaborative teamwork.

SKILLS

- Python, C/C++, C#, Java: Proficient in multiple programming languages.

- SQL: Skilled in database management and querying.

- BASH: Experience in scripting and automation tasks.

- MIPS Architecture: Familiar with low-level programming.

- AWS: Experienced in cloud solutions and infrastructure management.

- Web Development (HTML, CSS, JavaScript): Proficient in front-end technologies.

CERTIFICATES

CYBER SECURITY

- eJPTv2: Completed, showcasing penetration testing expertise. Passed the exam, demonstrating skills in conducting tests, identifying vulnerabilities, and providing security recommendations.
- Introduction to Cybersecurity Nanodegree: Completed Udacity Nanodegree, gaining proficiency in essential cybersecurity skills. Applied knowledge in network security, cryptography, secure coding, and incident response through hands-on projects.

MACHINE LEARNING

- Deep Learning Specialization: Completed Coursera's Deep Learning Specialization, mastering neural networks, convolutional networks, recurrent networks, and generative models. Applied knowledge through assignments and projects for hands-on experience.
- AI Product Manager BSF: I completed Udacity's AI Product Manager Nanodegree, gaining expertise in managing AI products. The program covered strategy, development, market analysis, and user-centered design. Hands-on projects enhanced my skills in innovating with AI.

EDUCATION

BACHELOR IN SOFTWARE ENGINEERING

Expected Graduation: 2025

EXCELLENCE CERTIFICATE: 2022/2023
